SUMMARY

B.Tech Computer Science and Engineering student at Adamas University with strong knowledge of Full Stack Development and experience in building responsive and scalable web applications. Skilled in frontend and backend development, database management, user authentication, and creating user-friendly interfaces. Passionate about developing practical solutions with clean code, good performance, and continuous learning to grow as a software engineer.

EXPERIENCE

E&ICT Academy I.I.T Roorkee

Jun. 2026 – Present

Generative AI Intern

Uttarakhand, India

- Completed hands-on training in **Generative AI**, Prompt Engineering, and Large Language Models (LLMs).
- Built AI-powered applications using modern GenAI tools and explored practical use cases of LLMs.
- Worked on projects involving prompt optimization, AI workflows, and real-world problem-solving.
- Gained practical exposure to AI application development, deployment concepts, and industry best practices.

QSpiders

Jun 2026 – present

Summer Intern

Kolkata, India

- Strengthened programming fundamentals through hands-on coding exercises in Java and Data Structures.
- Solved coding problems focused on logic building, algorithms, and object-oriented programming concepts.
- Participated in placement-oriented aptitude, technical interview, and mock interview preparation sessions.
- Improved problem-solving, debugging, and communication skills through collaborative learning activities.

PROJECTS

JobSense AI (Resume Matcher) | [Live Demo](#)

- An AI-powered Resume and Job Description Matching System built with Python and Streamlit that analyzes resumes, evaluates ATS compatibility, and provides skill-gap insights.
- Implemented Resume-Job Match Score, ATS Compatibility Analysis, Skill Gap Detection, Predicted Job Roles, and AI-powered resume improvement suggestions.

AI Weather App | [Live Demo](#)

- Developed an intelligent weather application using React.js and weather APIs to provide real-time weather forecasts with a modern, responsive UI.
- Integrated AI-powered weather insights, location-based forecasts, and dynamic weather visualization for an enhanced user experience.

Text Analyzer | [Live Demo](#)

- Built a React-based text utility application offering text analysis, formatting, speech-to-text, text-to-speech, and image-to-text extraction.
- Implemented OCR functionality, multiple text transformation tools, readability analysis, and responsive UI for improved productivity.

AI Background Remover | [Live Demo](#)

- Developed an AI-powered web application that automatically removes image backgrounds using modern AI image processing models.
- Implemented image upload, instant background removal, download functionality, and a responsive React-based user interface.

ACHIEVEMENTS & PARTICIPATION

Hackathons: Hack-Nova 2.0, Smart India Hackathon, Clash of Coders

Volunteer Roles: Adamas Winter Camp, ADINOVA Fest, 6th Convocation (2023)

Cultural Events: Active participant in hackathons and cultural events at Adamas University

EDUCATION

Adamas University

Bachelor of Technology in Computer Science Engineering (Core)

Expected 2027

Barasat, India

- **SGPA:** 7.54 (Semester V)

Kendriya Vidyalaya, IIT Kharagpur (CBSE)

Class XII (Science)

2023

West Bengal, India

- **Percentage:** 72%

Kendriya Vidyalaya, IIT Kharagpur (CBSE)

Class X

2021

west bengal, India

- **Percentage:** 81%

SKILLS

Frontend Development: : Responsive Web Design, DOM Manipulation, UI/UX Principles

Programming : Python, C, C++

Backend Development : Core Java, Object-Oriented Programming (OOP)

Tools & Technologies : Linux, Git, GitHub, MongoDB

Productivity Tools : Microsoft Excel, PowerPoint, Word

Soft Skills : Problem Solving, Analytical Thinking, Team Collaboration, Adaptability

CERTIFICATIONS

- AWS Academy Graduate - Machine Learning Foundations - Training Badge [View Credential]
- GLOBAL EMPLOYABILITY TEST 2025[93 percentile]
